

TEACHER COMPETITION
ACADEMIC EXCELLENCE 2009

To All Engineering Department Heads and Interested Candidates

Registration Date: 30th June/09 to 12th August/09

The school of Engineering at Universidad Nacional de Colombia continues the process of internationalization to offer its students and faculty a globally competitive academic and research environment. The school of Engineering seeks opportunities to enhance its ability to interact with the global academic community thereby creating students and faculty that are prepared to meet engineering challenges with knowledge from both national and international perspectives.

The qualified candidates should have a commitment to the importance of an internationalized academic experience, proficiency in English, and international academic training or research experience.

Interested candidates should consult the job posting for complete details and application process
